R. M. OF VICTORIA BEACH - REGULAR COUNCIL MEETING

East Beaches Social Scene, #3 Ateah Road, VB

TUESDAY, JUNE 02nd, 2026 – 7:00 P.M. – MINUTES

(Signed copy of approved meeting minutes available in RMVB administration office)

Res. 2026/090 – Randle / Axworthy

WHEREAS the Manitoba Emergency Services College must cease issuing seals under the previous NFPA 1001 standard as of June 30, 2026, once the new accredited standard comes into effect, pursuant to requirements established by IFSAC and ProBoard;

AND WHEREAS firefighters who are currently in progress under the former NFPA 1001 standard, particularly Fire Fighting Level I, must complete all required components before that date, including co-requisites such as Hazardous Materials Operations and all written and practical evaluations, in order to receive certification seals;

AND WHEREAS this transition places significant pressure on municipal and volunteer fire departments, many of which already face recruitment, scheduling, travel, and training-capacity challenges, and may be unable to ensure all affected members complete the required coursework and evaluations by the deadline through no fault of the municipalities or firefighters involved;

AND WHEREAS efforts have reportedly been made to expand hazardous materials training opportunities and communicate the transition timeline in advance, but access constraints and backlog pressures remain a concern for departments working to maintain firefighter certification and operational readiness;

THEREFORE BE IT RESOLVED that the Association of Manitoba Municipalities urge the Province of Manitoba, in consultation with the Manitoba Emergency Services College and relevant accrediting bodies, to pursue immediate transitional accommodations for firefighters who were actively enrolled under the previous NFPA 1001 standard prior to the implementation of the new standard, including options such as an extension, bridging mechanism, administrative accommodation, or other practical measure that would prevent unnecessary loss of training progress and reduce adverse impacts on municipal fire protection capacity.

BE IT FURTHER RESOLVED that the Association of Manitoba Municipalities advocate for improved transition planning, timely communication, and sufficient course capacity for future firefighter certification standard changes so that municipalities and local fire departments are not placed at risk of service disruptions due to training bottlenecks beyond their control.

Carried 5F/0A

Res. 2026/091 – Chadsey / Randle

Be It Resolved to approve the expenditure for a 2022 RAM Commercial Chassis Cab SLT worth \$97,052.00 (not including taxes) as per attached quote with condition noted below;

Further Be It Resolved this expenditure be subject to financing via an operational lease through the public works operating budget.

Condition (s): 1) To be inspected and approved by RMVB staff mechanic prior to committing to this expenditure.

Carried 5F/0A
